Redesign the Misleading Colored Chart

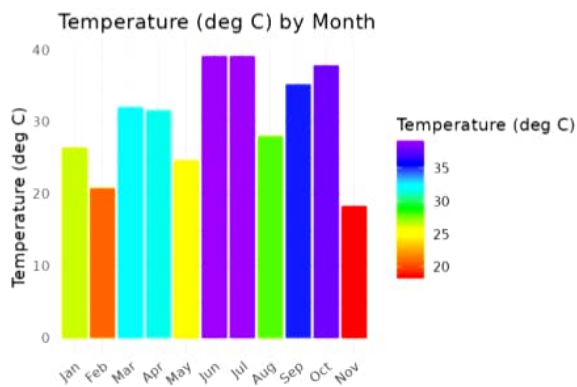

R.No: 1 Reg. No: 192324179 Name: ADDULA YASWANTH

*Each chart below uses color in a misleading or confusing way. For each one, answer the three questions in your own words.***Chart 1**

1. What is this chart trying to show?

2. What's wrong with the color choice?

3. Propose a better color scheme (describe it in words):

Chart 2

1. What is this chart trying to show?

2. What's wrong with the color choice?

3. Propose a better color scheme (describe it in words):

DSA-0602 - DHOV

Redesign the misleading colored chart.

chart 1

1. what is this chart trying to show?
 * This chart tells about the response counts of Employee skill level like Beginner, intermediate, Advanced expert.
2. what's wrong with the color choice?
 * The given colors are too bright and mixed colors, this color dominate the text to read.
3. propose a better color scheme?
 * The given colors are too enhance, use light colors for all levels like light blue, green, etc., then only text will be attracted to read.

chart 2 :-

1. what is this chart trying to show?
 * This chart tells about the temperature difference for every month in degree C.

2. what's wrong with the color choice?

* Here they used dark rainbow colors
this color's dominate the text, whenever
we see the chart eyes focus on color's
only not on text.

3. propose a better color scheme?

* my suggestion is to use consistent
color's for every month like simple
light color's, where low temp use
light color's, where high temp use
some dark color's.
